

Hello there, My name is Dean Johnston. I am a P/A to Mr. Adam Tumelo who is a former senior cabinet member in the ministry of petroleum and mining in Botswana. During his tenure as a political director, he made substantial income through a number of business transactions involving tenders and bids for the exploration rights to some solid mineral resources in various parts of the country. He is now willing to invest the funds in question privately through a reliable investor and trustee. The total amount of funds in question is \$23.8 Million US Dollars.

I am contacting you with the hope that you can be our partner and help to invest the capital in a profitable business in your country. He has decided to be a silent partner in this as he does not want to be directly involved in the day-to-day running of the likely venture and projects the funds may be invested into. I will be his ears and eyes during the negotiation process. On the acceptance to receive the funds as investment loan / capital, we will draft a mutual agreement and MOU to finalize the business association. I will also send you the proof of funds and other pertinent details.

Please note that all information pertaining to this proposal remain strictly confidential until a formal acceptance of this offer.

I am looking forward to receiving your favorable response.

Regards,

Dean
